

Unvented Space Heater Agreement Mobile Home

Date: _____

Customer: _____

Agency: _____

I certify that I have been informed by the Agency representative named below that the weatherization of my home may increase the potential danger of using unvented combustion space heaters.

I agree that any future use of unvented combustion space heaters in my home will be at my own risk, and I will not hold the Agency liable for any damage or injury that may occur as a result of such use.

I understand that the Weatherization program requires that **all unvented combustion space heaters must be physically removed from the premises**, but may remain until a replacement heating system is in place.
