South Carolina will operate its LIHEAP providing year-round crisis assistance according to the calendar year (January 1 - December 31.) If funding allows, an additional non-emergency benefit may be provided during the heating/cooling seasons. Therefore, LIHEAP assistance may also occur October 1 – December 31, 2025. South Carolina's Weatherization operates April 1 - March 31. South Carolina utilizes the SC Enterprise Information System (SCEIS) to ensure the proper tracking of federal grant awards by the appropriate year.

OEO may redesignate an eligible entity if an area of the state is not served or ceases to be served by an eligible entity. This includes situations where an existing eligible entity goes out of business, funding is terminated, or relinquishes its designation as an eligible entity. The procedure for redesignation shall be as follows: 1. The State will notify in writing and request written applications from:(a) Any private nonprofit organization that is geographically located in the unserved area, that can provide a range of services designed to meet the requirements of the LIHEAP Statute; and (b)Any private nonprofit eligible entity that is geographically located in an area contiguous to or within reasonable proximity of the unserved area and that is already providing related services in the unserved area. 2. Special Consideration. The designation shall be granted to an organization of demonstrated effectiveness in meeting the goals and purposes of LIHEAP. Priority may be given to eligible entities that are providing related services in the unserved area.

Each CAA is assigned a service area made up of a county or counties whereby program services of these grants are provided to specific county residents. Allocations for LIHEAP and the LIHEAP Weatherization Assistance Program (LWAP) are prepared by OEO's Fiscal Manager. Sub-grantee allocations for each grant are calculated based on the poverty rates of the county(ies) served by the sub-grantee. Disbursements are payments to the sub-grantees for administrative and program costs based, in part, on the funding allocated to a sub-grantee, timing, and reason for disbursement. All disbursements made to sub-grantees must ensure that the time between the day the funds are paid to the sub-grantee and when the sub-grantee spends the funds are minimized, ensuring compliance with federal requirements. The SC OEO references guidance in section 2 C.F.R 200.305(b)(1). During the program year, it is the sub-grantee's responsibility to track expenditures and submit a Certification of Advancement of Funds requesting funds needed and the reason for the request through the statewide database. The Certification of Advancement of Funds must be signed and dated by the sub-grantee's Executive Director, Finance Officer, and Program Officer. A separate form is required for each grant. The Senior Fiscal Manager must review the request, and if approved, a disbursement request will be submitted to Accounts Payable within the Department of Administration's Finance office for processing.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)							
10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds? The State maintains the internal controls and financial management system necessary to accurately account for LIHEAP expenditures; both fiscally and programmatically. Technical assistance and fiscal training are ongoing for agency fiscal officers and staff.

10.6 Explain, or attach a copy of your local agency monitoring schedule and protocol.

To assure the accomplishment of program outcomes and grant compliance, the OEO will monitor each Subgrantee a minimum of one time per three program years. Monitoring visits will be scheduled and confirmation letters will be forwarded to the Subgrantee at least 30 days prior to the scheduled visit. The OEO may conduct monitoring through a team visit. The team or individuals visiting Subgrantees will prepare a summary of the field visit and monitoring report upon return to the OEO. Subsequently, the monitoring report will be forwarded to the Subgrantee, with a copy to the Chairman of the Board of Directors, and will address any deficiencies identified during the field visit. (Copies of the monitoring report will be forwarded to the entire Board of Directors when there are major issues to be addressed.) Each Subgrantee will have a specific period of time to correct the deficiencies identified, if applicable. Major findings will be tracked by OEO to final resolution. Uncorrected deficiencies may result in contract suspension or possible termination in accordance with established policies. Monitoring Report Timeline: Following the exit conference, the CAA has five (5) business days to provide pending information requested by OEO to resolve outstanding monitoring concerns. Following the exit conference, OEO has twenty-five (25) calendar days to issue a draft report to the CAA. From the date of receipt, the CAA has ten (10) calendar days to respond to OEO's report. Finally, OEO has twenty (20) calendar days to issue a final report, including the CAA's rebuttals. Note: If the deadline falls on a holiday or weekend, the deadline will be extended to the next business day. It is a best practice for OEO to monitor each subgrantee annually. Along with the yearly review, OEO reviews financial expenditures by way of the subgrantee submissions of financial status reports. A fiscal desk review of subgrantee's detailed general ledgers and summary expenditure reports is also performed intermittently throughout the year. A tracking of quarterly expenditures is reviewed by programmatic LIHEAP staff and households served. OEO may also review real-time customer intake applications through the statewide database.

10.7. Describe how you select local agencies for monitoring reviews.

Site Visits:

OEO provides program and fiscal monitoring for each agency, at least once every three program years. Additional monitoring will be imposed by the state if severe deficiencies are identified. As a best practice, OEO makes the effort to monitor annually. The state attempts to perform on-site monitorings annually as a best practice. Criteria used to determine the scope of monitoring include the following: Financial stability of agency-Agency's financial/quality management systems-Results of past monitorings and status of findings-Results of single audit report-Leadership and key staff of agency, turnover-Reporting and timely submission-Additional monitoring activities may be performed due to: Results of last monitoring performed Unresolved findings-Escalation of findings from last monitoring from noncompliant to deficient or immediate deficiency-Resolution of findings-News, word of mouth, complaints, etc.-Potential mismanagement of funds-Consistent errors in reporting-Monitoring activities of the state include, but are not limited to the following:On-site monitoring (program and fiscal)-Desk monitoring-Monthly review of Financial Status Reports-Single audit review

Desk Reviews:

Fiscal monitoring staff perform a desk monitiring of all subgrantees in addition to the on-site monitoring to assist in identifying potential issues, opportunities for training and technical assistance, and areas to focus on during the on-site monitoring. A desk review is also performed on the subgrantee's single audit with a management decision issued when required. Programmatic desk reviews will be performed as needed.

10.8. How often is each local agency monitored?

Each agency is monitored at least once every three (3) program years. As a best practice, OEO makes the effort to monitor annually.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 16: Performance Goals and Measures, 2605(b) - Required for States Only

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP (Benefit Targeting Index, Burden Reduction Targeting Index, Restoration of Home Energy Service, and Prevention of Loss of Home Energy Service). Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

Performance data is used to determine South Carolina's LIHEAP benefit matrix and the level of benefit assistance provided for energy assistance. Performance measures influence changes to South Carolina's eligibility guidelines (ex. FPL vs. SMI). An annual review of energy data and households served is used to guide South Carolina's benefit matrix which is designed to target households with the lowest incomes and highest energy need. South Carolina will continue to engage additional vendors and collect data from electric, natural gas and propane vendors/ utilities to ensure a more accurate account of customer energy consumption and costs.

 - (B) if there is no such agency because of any change in the assistance furnished to programs for economically disadvantaged persons, then the State shall give special consideration in the designation of local administrative agencies to any successor agency which is operated in substantially the same manner as the predecessor agency which did receive funds for the fiscal year preceding the fiscal year for which the determination is made;

 - (D) ensure that the provision of vendor payments remains at the option of the State in consultation with local grantees and may be contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households, including providing for agreements between suppliers and individuals eligible for benefits under this Act that seek to reduce home energy costs, minimize the risks of home energy crisis, and encourage regular payments by individuals receiving financial assistance for home energy costs;

(8) provide assurances that,

- (A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and
- (B) the State will treat owners and renters equitably under the program assisted under this title;

(9) provide that--

- (10) provide that such fiscal control and fund accounting procedures will be established as may be necessary to assure the proper disbursal of and accounting for Federal funds paid to the State under this title, including procedures for monitoring the assistance provided under this title, and provide that the State will comply with the provisions of chapter 75 of title 31, United States Code (commonly known as the "Single Audit Act");
- (11) permit and cooperate with Federal investigations undertaken in accordance with section 2608;
- (12) provide for timely and meaningful public participation in the development of the plan described in subsection (c);
- (13) provide an opportunity for a fair administrative hearing to individuals whose claims for assistance under the plan described in subsection (c) are denied or are not acted upon with reasonable promptness; and
- (14) cooperate with the Secretary with respect to data collecting and reporting under section 2610.
- (15) * beginning in fiscal year 1992, provide, in addition to such services as may be offered by State Departments of Public Welfare at the local level, outreach and intake functions for crisis situations and heating and cooling assistance that is administered by additional State and local governmental entities or community-based organizations (such as community action agencies, area agencies on aging and not-for-profit neighborhood-based organizations), and in States where such organizations do not administer functions as of September 30, 1991, preference in awarding grants or contracts for intake services shall be provided to those agencies that administer the low-income weatherization or energy crisis intervention programs.
- * This assurance is applicable only to States, and to territories whose annual regular LIHEAP allotments exceed \$200,000. Neither territories with annual allotments of \$200,000 or less nor Indian tribes/tribal organizations are subject to Assurance 15.
- (16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and

thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.
